We have just received a short paper (Tab A) from State responding to your memorandum of June 27 asking that State acknowledge the improvement in the Argentina picture. ARA, which probably drafted the memorandum, is not exactly known for its reluctance to compliment Latin American governments when given the chance; and therefore, their note of caution carries great credibility. I have attached at Tab B the cable, which I recommend be sent to the post, and at Tab C, a cable on the meeting between Videla and Mendez of Uruguay which lends support to State's conclusion.

I recommend you send the memorandum at Tab I because the President raised the point about acknowledging the Argentine case a second time during his conversation with President Perez of Venezuela.

RECOMMENDATION

1. That you forward the memorandum at Tab I to the President.

*See your memo at Tab C.  
It's a useful reminder  
about what the package is  
all about.*
